Dear Ms. Laura Gelb,

I am very excited about this opportunity to work at Mothership Strategies as the new video editor where I am confident that I can bring the creative and technical skills to help clients produce the best digital product on the market. From finding video clips and compiling them into a short digital ad to shooting a video, I'm someone who is up for any video or graphic challenge while thinking creatively and accomplishing the task in a timely manner.

I am currently the digital and communications assistant for House Majority PAC (HMP) where I have honed my digital and communications skills working to hold Republicans accountable and elect a Democratic House Majority. Here, I learned on-the-job to advance my video, GIF, and graphic design skills, taking these products from concept to completion while staying on message and turning around content on tight deadlines. During this time, I gained strong experience in researching and compiling relevant video clips to put together concise and eye-catching videos along with compelling graphics and creative GIFs. In addition, I've used my design and coding skills to create websites that emphasizes our message and videos.

Outside of work, I've worked to expand my video knowledge with self-initiated video and film projects where I was the producer, director, writer and video editor. Through these projects I've gained skills collaborating with different people in the video-making process. I have the ability to work with a team and meet a deadline to complete these projects. As a team leader for the DC 48hr film competition, I excelled in organizing logistics and keeping my team on schedule to finish an entire short film. I've created a strong editing workflow process where I can efficiently compile and organize footage, edit drafts of the video, and create motion graphics to be added to the final product.

I am extremely excited about this opportunity and the chance to work with your organization to create amazing content and advance progressive ideals. Thank you for taking the time to consider my application. I look forward to hearing from you.

Best regards,

Emmanuel Vega
